

Basic Overview of FELV Program Costs

Below is an example of costs entailed with the running of an FELV program.

Non-routine basic care (follow up visits for URI, diarrhea, end of life services, etc) - \$50/cat average. This takes into account supply cost only, not staff time.

- Average follow-up vet visits, post-adoption, per cat = 3.

IDEXX FeLV Snap test - \$9.35

IDEXX FIV/FeLV snap test - \$13.65

- Testing = 1 Combo Test upon arrival + 1 FeLV test if combo positive + 1 FeLV test in 4 weeks.
- Initial testing = \$32.35, not including staff time or supplies like syringes / vials.
