How Would Foster Teams Look in Your Organization?

In order to think through how foster teams would look in your organization, please answer the following questions.

1. **How big would you want your teams and what roles would you want it to include? Would you change the role descriptions for your shelter?**

2. **How would you form a team?** (i.e. would you have an info session? Send out an email?) **How many teams would you like to have?**

3. **How would you “sell” the idea of foster teams to experienced volunteers?**

4. **How would you find a leader?** (i.e. hand pick one? Ask for volunteers? Nominations?) **How would you prepare that leader?**

P. 1

5. **What is your role as program manager?**

6. **How can you set teams up for success?** (i.e. would you use a discussion forum? Email? Meetings?)

7. **How would you leverage technology/social media?**

8. **What does success look like?** (i.e. what are your goals—how fast would you want a team to adopt out an animal? What other metrics for success will you track?)
